

Lake County Division of Transportation

Road Classification Map

July 2018

SPECIAL MOVEMENT PERMITS
Special permits for the movement of a vehicle or vehicle combinations for the roads highlighted on this map may be issued at the discretion of the County Engineer. Requests for such permits are reviewed on an individual basis with respect to the object to be moved, route, current pavement conditions and limitations of the highway facilities. Permit requests shall be limited to objects that have been reasonably disassembled to the smallest and highest unit possible. Requests for large truck access and for divisible loads such as topsoil, gravel, concrete, blacktop, drywall, etc. will not be granted.
Special permits consist of single or round trips, limited continuous (3-month term for oversize only), and telephone (pre-approval required). Permit fees are required for all permits. Contact the Permit Office of Lake County Division of Transportation at 847.377.7400 for further information.

NOTES
All large vehicles operating on a Class I highway (I-94) shall have access for a distance of one mile on any street or highway to points of loading and unloading, and facilities for food, fuel, rest and repair.
Large vehicles not exceeding 65 feet in length, 102 inches in width, and 80,000 pounds gross weight shall have access onto any county, township and municipal highway for a distance of 5 highway miles for the purpose of loading and unloading from any state designated highway, provided that there are no signs prohibiting access and the route is not being used as a thoroughfare between state designated highways. For more information about Illinois highway width, height, length and weight limits, refer to the Illinois Department of Transportation's "DESIGNATED STATE TRUCK ROUTE SYSTEM"
Map available from:
Illinois Department of Transportation, Bureau of Operations
2300 S. Dirksen Pkwy
Springfield, Illinois 62764.

Reference sections noted are from "Illinois Compiled Statutes."

DISCLAIMER
This map is intended only to provide general guidance about the postings and approximate limits of roads under the jurisdiction of Lake County and the County Engineer of Lake County.
Approximate locations of bridges and underpasses are also shown for information only and may not be all-inclusive. This map is not a legal document and shall not be used to supersede any current or future county ordinance and state statutes that may apply to the information shown.
